OFFICE \$1.00 PER YEAR
IN ADVANCE

WEDNESDAY APR. 19 - - - 1911

We rejoice that the Fiscal court has contracted to pay \$1,000 for the care of county patients at the Patti A. Clay infirmary for the coming year. Gradually our people are coming to know that an institution of this kind is a necessary part of the equipment of the community to battle against disease intelligently and economically. It is our purpose now to direct the attention of all our citizens, officials especially, to the moral obligation we owe to the whole State of Kentucky to support and maintain the Patti A. Clay infirmary. We reprint below articles from State papers to show that the location of the Normal school in Richmond was largely influenced by the fact that we had such a public institution as this in our midst. [LOUISVILLE TIMES, MAY 8, 1908.] "The selection of Richmond and Bowling Green as the sites for the Normal Schools provided for by the late session of the Legislature is unquestionably the best that could have been made. Both cities were generous in their offers and the buildings and grounds available for the schools will, from the outset, place this phase of Kentucky's educational system on a par with that of any other Southern State. "A peculiarly admirable feature of Richmond's offer is that that city is equipped with an infirmary, the gift of the Hon. J. J. Clay, Minister to Switzerland. For fourteen years this institution has been maintained largely through the unselfish generosity of certain Richmond and Madison county citizens. With the opening of the Normal School, the infirmary will prove an important adjunct of the institution and goes without saying that as liberal and progressive a county as Madison will not be backward in contributing its share to the equipment of the largest institution necessary for its successful conduct." [COURIER-JOURNAL.] "The Commissioners were greatly impressed with the fact that Richmond and Madison county jointly support a splendid infirmary, the gift of the Hon. J. J. Clay, Minister to Switzerland. This noble institution is a feature of the county of Madison that greatly adds to the advantage of Richmond as a center of students, where, in illness, they may receive medical or surgical attention. Such infirmaries are considered a part of the equipment of the largest institutions." [LOUISVILLE POST, MAY 8, 1908.] "One thing which greatly impressed the Commissioners yesterday was the fact that the Patti A. Clay infirmary supported jointly by Richmond and

Quickly Cures Coughs, Colds And Catarrh.

If you, dear reader, could spend an hour looking over a few of the thousands of testimonials that we have on file, you would not go on suffering from catarrh, that distressing disease that will surely sap your vitality and weaken your entire system if allowed to continue.
You would have just as much faith in HYOMEL as we have, and we have so much confidence in its wonderful curative virtue that it is sold the country over under a positive guarantee to cure catarrh, cough, sore throat, colds and colds or money being when you breathe HYOMEL. Just pour a few drops of the liquid into the inhaler and breathe it in.
It is mighty pleasant to use, it opens up those stuffed-up nostrils in two minutes, and makes your head feel as clear as a bell in a short time.
Breathe HYOMEL and kill the catarrh germs. It's the only way to cure catarrh. It's the only way to get rid of that constant hacking, snuffling and spitting.
A complete HYOMEL outfit, which includes a bottle of HYOMEL and a hard rubber packet inhaler, costs \$1 at drug stores everywhere or at R. L. Middleton's. If you already own a Hyomel inhaler you can get an extra bottle of HYOMEL for 50 cents.
